

STINGRAY® JS988 POWERFUL, DURABLE & VERSATILE POINT-OF-SALE TERMINALS

ALWAYS BE READY TO TAKE AND FULFILL CUSTOMER ORDERS

With the Stingray® JS988 Point-of-Sales Terminal, you'll be equipped to meet the demands of today's fast-paced retail and hospitality environments. Our state-of-the-art solution delivers powerful performance, reliability, and versatility, all packed into a stylish, space-saving design.

Flexible Design to Meet Your Unique Needs

Panasonic Connect has a decades-long legacy of innovating durable point-of-sale terminals. We understand the unique requirements of the most challenging operations. That's why we've created the Stingray® JS988 with a modular design that can be customized to create a wide variety of form factors.

Choose from a selection of wide or narrow screen sizes that are available in multiple configurations, including wall, counter, and kiosk. Then, add your choice of peripherals like a camera, customer-facing display, MSR, biometric reader and more - all able to be installed in both landscape and portrait mode.

Focused on Performance

Integrated with the latest Intel® processors, the Stingray® JS988 is designed to be fast and powerful, ensuring smooth and efficient operations.

Unmatched Versatility

Only the Stingray® JS988 offers such a wide variety of configurations. Choose from 15.1" or 15.6" screen sizes, landscape or portrait mode, extensive peripherals, and mounting options.

Space-Saving Design

The JS988 is more compact than ever. With a small footprint and lightweight design, users can effortlessly view and interact with the terminal.

Easy to Maintain

Experience the convenience of our service-friendly design. A front-facing USB port and service doors for M.2 SSD and DDR4 replacement, easy access for service and maintenance.

Deployment, Installation and Maintenance

The Panasonic Connect Professional Services Group is an experienced team of engineers that provide onsite installation, deployment, and ongoing support from our 24/7/365 customer call center.

Versatile Peripheral Support

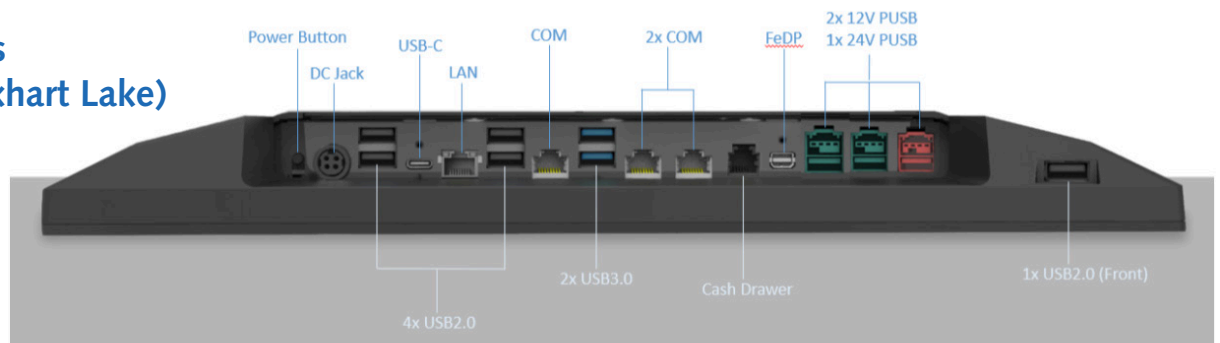

Landscape & Portrait Mode

You'll have the flexibility to install peripherals in both landscape and portrait mode.
